EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech., CSE	SRM Institute of Science and Technology, Chennai	8.4	2024
Senior Secondary	Amity, Vasundhara-6 / CBSE	91.8	2020
Secondary	Amity, Vasundhara-6 / CBSE	89.4	2018

EXPERIENCE

-  **Genpact** Apr'25 - Sept'25
Data Analyst Process Associate New Delhi, India
 - Analyzed financial transactions in Anti-Money Laundering (AML) monitoring to detect suspicious patterns. Used Citrix environments, Excel, and IBM compliance tools.
 - Streamlined processes with a data-driven approach, improving efficiency and accuracy in workflows.
-  **EIL** Jan'24 - June'24
Machine Learning Intern New Delhi, India
 - Developed a Python-based application that analyzed astronomical data using machine learning models to identify personality traits by machine learning, identifying the outliers
 - Implemented genetic algorithms to develop a timetable scheduling system

PROJECTS

- Agentic AI Recruitment Copilot** 2025
Tools: LangGraph, AutoGen, MCP, RAG, AWS, Docker
 - Built a production-grade multi-agent hiring workflow using LangGraph AutoGen.
 - Designed Planner, JD Analyzer, and Candidate Ranking Agents with tool-calling and memory.
 - Implemented multimodal RAG using text layout embeddings for ATS-style scoring.
 - Built MCP tools for automated parsing of resumes job descriptions.
 - Deployed using AWS Lambda + FastAPI, containerized with Docker.
- Business Travel AI Copilot** 2024
Tools: LLM Agents, SQL Agent, Airflow, DBT, Tableau
 - Automated travel policy interpretation using a SQL-enabled LLM agent.
 - Built tool-based chain: query → retrieve → validate → summarize.

SKILLS

- * **Programming Languages:** Python, Java (Spring Boot), C++, C sharp, SQL
- * **Machine Learning and Data Science:** Scikit-learn, TensorFlow, Keras, Pandas, NumPy, Matplotlib
- * **Tools and Technologies:** Docker, Git, Postman, MongoDB, PostgreSQL
- * **Cloud and DevOps:** AWS, MLOps, Docker, Kubernetes, CI/CD Pipelines, Automation
- * **Other:** REST APIs, Image Processing, Genetic Algorithms, Data Analysis using, Computer Vision

CERTIFICATIONS

- * **Fundamentals of Red Hat Enterprise Linux, Certification 1** May'23

PUBLICATIONS

- * [Scopus IEEE ICACRS Potato Plant Disease Detection and Classification for Improved Agriculture](#)
